To Whom It May Concern

### Testimonial ASpace

It is with great pleasure that I write this letter of recommendation for Kai Yu, and her team, with whom we have recently had the good fortune to work with.

ASpace and Project One were invited to collaborate on a project pitch against some highly reputable competitors in the Sydney market. Together we diligently prepared the client's return brief meeting and exceeding all of their expectations to win the project through a comprehensive design pitch.

Kai is not only a gifted designer, with an excellent track record, but a joy to work with. Professional, expressive, confident and always smiling. She clearly loves what she does and her creative enthusiasm is infectious.

I can, without hesitation, highly recommend Kai to anyone looking for a very talented interior design as a project partner or project leader for their interior projects.
